FC-VCD-AL-400-M

Full Circle's Volume Control Dampers or Balancing Dampers are designed to balance air to individual areas. This unit comes with complete manual quadrant or motorized actuators. Volume Control Dampers can be manufactured with galvanized steel, stainless steel and aluminium. Dampers are suitable for the systems requiring air control.

Features:

- Full Circle Dampers are available from 100 mm to 1200 mm for single section, if the size is more than 1200 mm, the dampers will be manufactured in multi-section with single drive or multiple drives as per requirement.
- Pre-punched holes are available for easy installation.
- Blade: Aerofoil, double walled, 1.60 mm equivalent thickness galvanized steel sheet.
- Actuator: Belimo / Honeywell On / Off or spring returns type.

Non Return Dampers

FC-NRD-SD

FC-NRD-RD

FC-NRD-WM

Features:

- Smooth and maintenance free blade operation
- Frame is manufactured from high quality aluminum / galvanized sheet steel of 18 gauge thickness.
- Blades are made of 0.3 mm / 1.00 mm thickness aluminum sheet or galvanized steel sheet.
- Blades are fitted with nylon bushes for rattle free and smooth operation.
- Blades are sealed with foam / rubber gasket at the bottom to avoid rattling noise and provide air tight operation.
- Frame is fitted with aluminium strip to prevent the over movement of the blades.
- Additional centre partition shall be provided if height or length is more than 900 mm.

Our manufacturing company specializes in non return dampers designed to optimize ventilation systems. These dampers ensure one-way airflow, preventing the backflow of air and maintaining efficient ventilation in various environments. Crafted from high-quality materials, such as galvanized steel or aluminum, our non return dampers offer durability and reliability. They are available in a range of sizes and configurations to suit different ductwork systems. With easy installation and low maintenance requirements, our non return dampers enhance indoor air quality while improving energy efficiency. Trust us to enhance the performance of your ventilation systems for optimal airflow management.

DUCT ACCESS DOOR

Fast and secure installation

Unlocking efficiency with fast and secure duct access doors! Our innovative solutions ensure quick installation without compromising on security. Experience seamless access to your ductwork with our trusted products!
